# About

BitcoinGo App is a mobile payment and digital wallet service that let users make payments with their smartphones. We want to solve the problems of FIAT currency´s and digital money services like VISA/ MASTERCARD/AMEX and SEPA transactions.

FIAT currencies have large problems in terms of printing, storing, sending and receiving money. Banks who are working with FIAT currencies facing heavy issues like high costs at every branch for properties, terminals, atms, employees and infrastructure.

BitcoinGo brings the highest security level possible and is faster than SEPA transactions or credit card payments. Our customers can make transactions in under 5 Minutes and with instant transactions for micropayments our customers can pay in real time.

We know based on our researches that in the near future we will pay with our smartphones and smartwatches without plastic cards or cash.

"The future of banking is digital and mobile."
